

I Have Special Friends!

Do you know about angels? They are real-life super heroes who watch over you and protect you! Why don't we see them? Sometimes we do see them, but usually they are invisible to us because God is not ready for us to have a relationship with them yet. We will meet all of them later in Heaven. God sends angels to help His children whenever help is needed. They know your name and they know where you live and they know your family members. They enjoy watching over you to keep you safe. We can't call the angels because they answer only to God. We must never pray to angels or worship an angel because they are not gods – the only power they have is the power God gives to them. The holy angels always obey God. In Luke 15:10, the Bible says it makes the angels really happy when we make the decision to obey God too. Because God loves you, He uses the angels to be your body guards. But one day, you will be more powerful and have a higher rank than the angels because you are in the family of the King of the whole universe, but the angels are only servants of the King.

Thought: The angels admire you – you are Royalty!
