

Fun Classes At Camp

In addition to all the fun and excitement of camp, parents can now also choose thrilling focus areas for their kids at Character Camp. The classes are free. These high-energy, high-impact classes are based on the “I CAN” learning method developed by the educators at Character Camp. I CAN stands for:

Interactive – Students are drawn into the learning experience and become effective collaborators in the educational process. To make learning engaging and interesting, Character Camp creates a climate for continuous confident participation.

Coaching – Teaching focuses more on developing the intellect while coaching focuses more on developing the individual (as a whole person). The Character Camp learning environment is kept free of tension.

And – Most importantly...

Networking – Students learn to function as a team. Students supportively help hold each other accountable for conduct and performance, creating a self-correcting culture of excellence.

Please Mark Your First Choice With A “1” And Your Backup Choice With A “2”.

- Aviation Amazement!** Students will learn about aerodynamics and get actual flight training on a real airplane simulator! They will taxi down the runway, take off and soar over southeast Texas using ultra-realistic Lockheed Martin, professional grade simulation that will knock your socks off!
- CSI!** If you have ever wanted your child to fall in love with analytical thinking, you may want to sign them up for the new **Crime Scene Investigation** class taught by a professional detective! Not gory or scary, but definitely interesting all week long as they put the puzzle pieces together to solve the crime scene mystery using actual tools of the trade!
- Robot Rave!** Students will have a ton of fun learning about robotic engineering and helping to assemble and operate robots in a real competition against peers!
- Electronic Love!** Students will be amazed as they learn how electronics works. They get to build creative electronic circuits that perform real tasks right before their eyes!
- Physical Fitness Fun!** This is not school P.E.! This is an adrenaline rush from start to finish!! Learning from a certified coach how to do energetic exercises and manage nutrition will be so entertaining! Guaranteed – high-energy dancing, game playing and kick boxing (non-contact) will leave them asking for more!!
- Dance!** Taught by a professional dancer/actress, this is high-energy, heart thumping fun that builds self-confidence in front of an audience and lasting positive friendships with fellow stage members.
- Computer Coding!** Yes, it all fun and excitement as students compete in teams to build the best video game by the end of the week! Students gain real programming skills that are transferrable to any industry that uses computer coding. In this technological age, this is a must!
- Arts & Crafts!** Students will explore their creative side in new and fun ways as they create cool projects under the guidance of very imaginative instructors!

SPACE IS LIMITED AND CLASSES ARE ON A FIRST COME, FIRST SERVED BASIS.
